

69 little shops *worth pulling over for.*

Nominated by you. A hardware store that still rings you up on a hand-cranked register. A candle barn with goats. A village with four shops on one street that most people drive straight through. Sorted by area, just in time for holiday shopping.

SHOPS · 9 AREAS · NOMINATED BY YOU

Lion's Head to Kincardine
Clarksburg to Durham
and a few worth the detour

You picked these.

In September we asked for the little shops you always pull over for. The general store with the post office in the back. The one-room maker's shop. The place on the highway you finally stopped at. You sent in 108 nominations.

We checked every one to make sure it's open, and sorted the rest by area so you can make a day of it. No big box stores. Independents only.

How to use it

Pick an area, pick three or four shops, and make a loop. Small shops keep small hours. Lots of these are open Wednesday to Saturday, and holiday hours shift, so check their page before you drive. Every shop name in this PDF links straight to them.

Hours, addresses and stock change, especially this time of year. Everything was right as of early October 2026, but the shop always has the final word.
